

POWER TO LIFT

# HMF 810K-RC

The HMF 810K-RC is a versatile crane with low tare weight and high lifting capacity.

## Main benefits

- Minimum space requirements
- Radio remote control system for total freedom
- Wear-resistant

## A radio remote controlled crane for total freedom

The HMF 810K-RC is a flexible crane with full speed in the entire working area. The crane is fitted with a low tare weight compared with high lifting capacity, which ensures high loading capacity and efficiency during loading and unloading.

The crane is furthermore equipped with the HMF single Power Plus link arm system which e.g. ensures high working speed when loading and unloading with grab.

It also has an over-bending of 15° which means that it is capable of lifting the maximum capacity in the maximum over-bending position.
